

The Paducah Evening Sun.

VOL. XXVII, NO. 75.

PADUCAH, KY., TUESDAY EVENING, MARCH 29, 1910.

TEN CENTS PER WEEK

SEWER DISTRICT NUMBER THREE IS GREATLY DESIRED

West End Residents Will Petition General Council For It.

Sickness Caused by Lack of Sanitary Connections

PLANS OF THE CITY ENGINEER.

Residents of the west side are in danger.

This announcement was made today from the city health department, which will back the efforts of property owners along Fountain avenue and the surrounding territory for the proposed No. 3 sewer district, which has been for many years the hope of City Engineer L. A. Washington.

A petition is being prepared and will doubtless be signed by every property owner of the West End and presented to the general council, asking for an issue of special assessment bonds for a badly needed sewer that will give relief. The dry wells in that section of the city are unsatisfactory and cause considerable sickness. That is the reason for so much illness in that part of the city, according to the city health officer. The sickness is largely responsible for the earth being saturated with the liquid from the dry wells. The health officer said today the residents are awakening to the fact that they are living in constant danger with the rapidly increasing population. The health department is urging the movement and will lend every effort to get the sewer through.

A trunk line sewer ten feet in diameter beginning on Fountain avenue and running northeast to the Ohio river is the city solution of the problem, according to City Engineer Washington. This has been his plan for years. It is proposed to begin the sewer at the intersection of Fountain avenue and Broadway, running north on Fountain avenue to Harrison street, east on Harrison to Harsham boulevard, north on Harsham to Tribune and down Tribune street to the river, taking in the hollows in the lower extremity.

In the opinion of the city engineer the trunk line would cost approximately \$200,000. Branches could be run out, taking in all the west end. The main sewer would take care of an enormous amount of drainage. The trunk line would relieve the immediate danger of the present.

The petition will be probably presented to the general council next week. If it is completed by then, and some action may be taken immediately. The bill providing for the city sewer bonds was recently passed in the state legislature. Under the new public improvement act, the general council declares a certain improvement district and the assessment is made against all the property owners benefited by the improvement.

PITTSBURGH'S GRAFT PROBE GOING DEEPER

Pittsburgh, March 29.—More bank ers appeared today in the city council graft probe. Of the bankers representing six banks, twenty have been examined to date. Harrison Nesbitt, foreman of the jury, is taking an active part in the questioning. He was a former bank examiner and is thoroughly alive to the situation.

Bishop Woodcock Coming

The Right Reverend Charles E. Woodcock, bishop of the Episcopal diocese of Kentucky, will arrive tomorrow evening from Louisville and will preach in Paducah Wednesday and Thursday evenings. He will speak at the house of the Good Shepherd in Arcadia Wednesday night at 7:45 o'clock. Thursday night he will preach at Grace Episcopal church at 7:45 o'clock and will hold confirmation at the close of the sermon. Bishop Woodcock is an eloquent preacher and always has large congregations on his visit here.

Telephone Meeting

New York, March 29.—At a special meeting of the stockholders of the American Telephone & Telegraph company, they approved the plan to increase the capital from \$300,000,000 to \$500,000,000 and enlarge the board of directors from 18 to 25.

At the annual meeting, following the special meeting, the retiring board of directors was re-elected.

Palmist Brings Suit For Damages Against Former Chief of Police James Collins and Other People

Mme. Castellano, Charged With Robbery, Establishes Alibi, But Feels Greatly Aggrieved by Experience.

For damages as the result of two alleged false arrests, Mrs. Laura F. Kerner and her husband, C. R. Kerner, of Mount City, Ill., have filed suit in the federal court against James Collins, former chief of police of the city, S. H. Heldbroner, city marshal of Henderson, and Daisy Moss, colored, of Henderson, for \$12,500 damages. Mrs. Kerner is a palmist who uses Madame R. Castellano as her business name, and alleges she was arrested for the theft of a gold watch in Henderson, but in both trials established her innocence.

A watch is said to have been stolen from Daisy Moss, colored, of Henderson, October 9, and a palmist was suspected of being guilty. Madame Castellano was in Paducah, and on October 15 she alleges she was placed under arrest at midnight by James Collins upon evidence furnished by Heldbroner and Daisy Moss. She says her house was searched by the police, who were looking for the stolen watch, and that her arrest and the search were humiliating. On the following day she says she was tried in police court before Judge D. A. Cross and was acquitted.

Following her acquittal in police court, Madame Castellano alleges that Marshal Heldbroner and Daisy Moss went before the Henderson county grand jury, and offered evidence so that an indictment, charging her with grand larceny, was issued, and that on October 20 she was placed under arrest again by James Collins. She recites that she was taken to Henderson as a prisoner in a railroad coach, and after Henderson was reached she was placed in jail for six days. She alleges the cell was damp, and she suffered from cold so that her health has been affected.

On her second trial she alleges that she spent \$400 in order to take witnesses from Paducah to Henderson for her trial. After the trial was begun the case was dismissed by the prosecution. She says by reason of the wide publicity given her arrests that her reputation as a palmist has been damaged, and she seeks to recover \$10,000. The damage to her health is estimated at \$2,500. The suit was filed by Attorneys Oliver & Wickliffe.

Tobacco Sales

At Bohmer's loose leaf tobacco warehouse this morning 32,000 pounds of tobacco were offered and sold. High price, \$11.85; low \$5.50, making an average of \$10.14. Mr. Nat Dorch, of Hopkinsville, was among the buyers present.

Tobacco Arrivals.

Heavy shipments of tobacco from Calloway, Graves and Marshall counties are being made to the Western District warehouse at Paducah and Mr. M. M. Tucker, who is in charge, anticipates one of the largest sales of the year Thursday, April 7. At that time he predicts that the number of both local and out-of-town buyers to be present will outnumber any in the history of the warehouse. Prospects are bright for the sale of about 500 hogheads of tobacco. Good tobacco is scarce and buyers are searching for it everywhere.

Wolters Loses Nerve But He Regains it

New York, March 29.—Gringing in his cell, his nerve gone, Albert Wolter, charged with the murder of Ruth Wheeler, is preparing to confess to the police. He promised Inspector Titus as soon as he has written a letter to Katherine Mueller and received an answer he will make a confession. Police got the promise from Wolter by playing on his affection for the Mueller girl. They told him she would be charged with the crime in case he didn't confess. They had her write him a letter. When Wolter received it he fell writhing

THE WEATHER

The predictions and temperatures for the past twenty-four hours will be found at the top of the seventh column on page four.

AUTO TAGS.

One hundred new auto tags have been received by City Clerk Maurice McIntyre and the police have been instructed to have auto owners secure numbers for their machines and register at the clerk's office. There is no ordinance compelling auto owners to provide tags for their machines and it is widespread around the city hall that an ordinance will soon be introduced, fixing a penalty for failure to get tags. It is compulsory in other cities.

BENNETT BREAKS DOWN TESTIFYING

ACCUSES TOM JONES OF DRAGGING HIM FROM CHILD'S DEATHBED.

Marion, Ky., March 29. (Special.)—In testifying at the trial of Tom Jones, an alleged night rider, who, it is charged, attacked H. H. Bennett and W. M. Graves, at Dycusburg, and burned the factories in 1908, Bennett said Jones pulled him away from his dying child's side. He said he was whipped until many of the thorns from switchs were left in his flesh. He broke down while testifying.

Men's Class Banquet

The banquet tonight at the Broadway Methodist church will be at 7:30 o'clock. It will be an elaborate four-course affair served by the Ramsey society of the church and will take the place of the regular supper at home for the invited guests. All members of the Men's Bible class who have not procured tickets are requested to be at the church promptly at 7 o'clock to secure them. It will be a pleasant social occasion. In addition to the regular speakers of the evening there will be a number of impromptu talks. Dean Snow of the State University at Lexington will be a guest and a speaker. Mr. H. C. Rhodes will preside at the banquet.

VIRGIL HOOVER HURRIED AT SHARPE THIS MORNING

The burial of Virgil Hoover, 60 years old, a prominent farmer of Sharpe, took place this morning with burial at Bethlehem cemetery. The Rev. J. M. Pace officiated. His death resulted from infirmities of old age. He was a man well liked and had many friends in Marshall and McCracken counties. He is survived by a wife and seven children.

BREAKERS LEAVE

Six non-union leatherworkers, said to have been brought here as strike breakers in the strike of the leatherworkers, left the city last night. The men were in the city yesterday, but the union men held a conference with them and as a result the non-union workers left last night at 6 o'clock for Tennessee.

LIVINGSTON LAD ONE OF VICTIMS OF CHARLESTON

Body of Henry Almond Heater Will be Brought Back to Tiline.

Barn is Burned by Incendiarists.

SMEDLEY APPEAL APRIL 11.

Smithland, Ky., March 29. (Special.)—The body of Henry Almond Heater, who was killed on the cruiser Charleston by the premature discharge of a gun, will be sent to his home, Tiline, Livingston county. His father, J. N. Heater, a prosperous farmer, has wired for his body. The young man enlisted at Paducah three years ago. He went around the world with the fleet and was recently transferred to the Charleston. He was 2 years old and enlisted with his parents' consent. There is a large settlement of the Heater family in Livingston county about five miles from Smithland. The dead boy had many friends here.

There were two boys from this section among the dead. The other was Mable Harner, of Cave-In-Rock, Ill. His next kin is his mother, Mrs. Sarah Shelton, Ardmore, Okla. Harner also enlisted at Paducah.

Incendiarist Fire.

Smithland, Ky., March 29. (Special.)—The state fire marshal is on his way to Smithland to investigate the burning of H. H. Wright's big barn on his farm three miles from town. Last Saturday a notice was fastened to his gate, warning him to quit certain white tenants, who were not pleasing to his neighbors. Sunday night the big barn, which contained a quantity of hay, was burned. An effort to secure bloodhounds was unsuccessful, but the officers have a clue to the incendiaries.

April Term Court of Appeals.

Frankfort, Ky., March 29.—The appeal of Hiram Smedley, former county court clerk of McCracken county from the sentence of 5 years in the penitentiary for misappropriation of public funds, will be heard in the court of appeals Monday, April 11.

The docket is:

Commonwealth cases.—Monday, April 11, Eddy vs. commonwealth; Scott vs. commonwealth; Garrard vs. commonwealth; McCracken vs. commonwealth; Muhlenberg vs. commonwealth; Smith vs. commonwealth; Henry vs. commonwealth; Clay vs. commonwealth. Tuesday, April 12, the last day for filing appeals for the September term, 1910.

Wednesday, April 13, 1910. First Appellate District.—Jones vs. etc., vs. Mobile and Ohio R.R. Co., Hickman vs. Meadows vs. Shelbore, Fulton vs. Morris vs. Roherston, Fulton vs. C. R. Co., vs. Dupree, by, etc., Fulton vs. Wheeler vs. Wheeler, etc., Graves vs. I. C. R. Co., vs. Long, Graves vs. Austin vs. Evans, Graves vs. Walters vs. Dorlan, etc., McCracken vs. Kincaid's admr. vs. Paducah Traction Co., McCracken vs. Curtis vs. Isaman, McCracken vs. Craig vs. Spitzer, McCracken vs. Davis, etc., vs. Harrison, McCracken vs. Palmer Transfer Co., vs. Daugherty, McCracken vs. Perkins vs. Ogilvie, etc., McCracken vs. Kirkpatrick & Co., vs. Rehkopf Saddlery Co., McCracken vs. James Manufacturing Co., vs. Rehkopf Saddlery Co., McCracken vs. Southern Insurance Co., of New Orleans vs. Johnson, Marshall vs. commonwealth, for use, etc., vs. Ferguson, supt., Livingston vs. Wooten vs. Martin, Lyon vs. Allison vs. Cash, etc., Lyon vs. Collins, etc., vs. Lawson's committee, Trigg vs. Dunn vs. city of Cadiz, Trigg vs. Franka vs. Smith, Caldwell vs. West Kentucky Coal Co. vs. Davis, Union, Dunagan, etc., vs. Wallace, etc., Webster vs. Tappin admr. vs. Polindexter, Webster vs. Madisonville and Eastern R.R. Co., Hopkins vs. Ayer, Lord Tie Co. vs. Baker, Muhlenberg vs. Indiana Tie Co. vs. Landrum & Howerton, Muhlenberg vs. I. C. R. Co., vs. Reed, Muhlenberg vs. Doss, etc., vs. Holt Coal Co., Muhlenberg vs. Rader, etc., vs. L. and N. R. Co., Muhlenberg vs. Gish vs. Shaver, sheriff, etc., Muhlenberg vs. Hendrick's admr. vs. Adama Express Co., Muhlenberg vs. Towne's admr. vs. Robertson, Muhlenberg vs. Barnett vs. Williams, Christian vs. Stuart vs. Pe-tree, Christian.

Mr. C. J. Ballowe, formerly a blacksmith in the city, is expected to return in a few days from Indianapolis, where he is attending a veterinary college.

Speech in Senate Defending Bill to Extend President's Authority to Withdraw Power Sites Land

Insurgents Will Postpone Further Fight on Cannon Until Tilt's Program is Carried Out.

Washington, March 29.—Senator Chamberlain today in a speech before the senate, favoring the bill, giving the president power to withdraw public lands for forestry and water power sites, irrigation, and classification of lands, and for other purposes, accused congress of enormous waste. He said the main principle involved in the president's power to withdraw lands was never disputed (H. Rept. 11). He said: "It is necessary to protect what remains of the public lands for the benefit of the whole people; and to conserve the undisposed of, unappropriated natural resources."

Ship Subsidy Lobby. The house this afternoon by a vote of 125 to 65 decided to make an investigation of the charge that there is a ship subsidy lobby influencing congressmen. The investigation will be by a committee of five, as the result of the resolution, introduced by Representative Stoenerson.

Beveridge Statehood Plan.

Washington, March 29.—Senator Beveridge presented to the senate the report of the committee on territories favoring the senate bill in preference to that passed by the house, for the admission of New Mexico and Arizona as separate states. The report defends the changes made by the senate committee in vigorous language, especial emphasis being given to the refusal of the senate bill to recognize the present election law of Arizona.

The effect of the law, it is charged, would be to disfranchise a large number of the oldest and most substantial citizens of the territory by reason of their inability to interpret the constitution of the United States in English. The house bill would make the present Arizona law the test of qualifications of citizens to vote. It is favored by Democrats in

(Continued on Page Four.)

SAYLER'S BODY IS STUMBLING OVER

WITNESS DROPS LAMP CHIMNEY—BLOODY PAPER FOUND.

Watsoka, Ill., March 29.—Dr. J. S. Near resumed the stand in the Sayler murder trial today. He told of entering the room immediately after the shooting and almost stepping on Sayler's body. He said he carried a lamp with a night chimney. It fell off and a strange man picked it up. He said the man picked up the chimney with some paper, later found to be blood stained. Dr. Near's testimony makes it certain that Jasper was brought into the room after the shooting. W. O. Sayler testified that the last he saw of the hatchet was in his hunkaloo on the Iroquois river.

SENATOR ALLDS RESIGNS PLACE

NEW YORK LEGISLATOR, ACCUSED OF GRAFT, IS FOUND GUILTY.

Albany, N. Y., March 29.—Senator Jotham P. Alder, half an hour before the senate met to vote on the charges against him for accepting a bribe, filed his resignation with the secretary of state. It is supposed he took this action to save his friends the embarrassment of voting on the question at issue. It is not known what effect his resignation will have on today's proceedings.

By a vote of 19 to 9 the senate today declared Senator J. P. Alder guilty of soliciting and accepting a bribe of \$1,000 to use his influence to kill legislation aimed against the bridge trust. The charge was brought by Senator Ben Conger, Solleited bribe.

New York, March 29.—D. P. Kingsley, president of the New York Life Insurance company, swore today at the investigation that William H. Buckley, solicited a bribe of \$3,000 for six senators to prevent the Armstrong Insurance bill being taken up.

ENTHRONEMENT OF NEW BISHOP AT LOUISVILLE

Great Crowds Attempt to Get in Cathedral Where Service is Held.

Pontifical High Mass Said by Prelate.

DELIVERS HIS FIRST PASTORAL.

Louisville, Ky., March 29. (Special.)—Great crowds were at the cathedral this morning long before the hour for the coronation of Bishop O'Donoghue. Many were unable to get inside the building.

The bishop arrived last night and was escorted to his residence by 2,000 people. The ceremonies began at the cathedral at 9:30 this morning. The bishop was escorted by clergymen and laymen and reached the church promptly. He sprinkled the walls of the cathedral with holy water and was preceded up the aisle by clergy, marching two abreast and chanting the Te Deum.

The main feature was the celebration of the pontifical high mass by Bishop O'Donoghue.

The sermon was preached by the Rev. C. P. Mearns, bishop of Covington. Archbishop Moeller also spoke, after which Bishop O'Donoghue delivered his first pastoral address to the clergy and laymen.

The music of the mass was Haydn's Imperial, with a choir of 150 trained voices, assisted by the Louisville symphony orchestra and directed by Gratz Cox. Handel's celebrated "Hallelujah Chorus" was given at the offertory.

A big dinner at the Seelbach ended the day's festivities.

Officers of the mass, besides the new bishop, included 17 priests, among them was the Rev. George W. Conner, of Owensboro.

FUNERAL OF FRANK RYNUM IS HELD AT M'KENDREE

The funeral of Frank Rynum, 35 years old, took place this afternoon at 4 o'clock with burial in the McKendree cemetery. He died yesterday afternoon at 5 o'clock after an illness with abscess of the brain. Mr. Rynum was a farmer, and resided in the Concord school house neighborhood, and was a popular man. He is survived by one sister, Mrs. Albert Nulty, and three half-brothers.

BACCALAUREATE AT FIRST PRESBYTERIAN

The Rev. H. W. Burwell, pastor of the First Presbyterian church, will preach the baccalaureate sermon of the 1910 graduating class of the High school. The sermon will be delivered June 4, but it has not been decided whether the service will be held in the morning or evening. Dr. Burwell recently came to Paducah and is a most gifted man.

May Be Gang of Thieves

Wheels continue to be missing, and it is believed that a gang of thieves is operating in the city and shipping the bikes away for sale. Last night the wheel of Aubrey Neuman was stolen from on Broadway between Fifth and Sixth streets. The police have received many complaints of missing bikes.

Frame Fire Trap Torn Down.

Under orders from Fire Chief James Wood, an old frame shack at the corner of Clements street and Yeiser avenue was torn down this morning by the firemen of the No. 2 station. Twice the shack has been discovered on fire, but was saved. It was considered dangerous, and Chief Wood ordered it razed. The shack was owned by Peter Eley, of Renton.

Cincinnati, March 29.—All negotiations between the miners and operators of Indiana Ohio and Pennsylvania are broken off. The strike is scheduled for April 1, miners assert.

News of Theatres

"A Pair of Country Kids," a rural comedy drama, is the play announced at the Kentucky theatre and night, Saturday, April 2.

"King Dodo," by Pixley and Lunders, will be an early attraction at the Kentucky theatre.

"Dvngeline" had its dancing helper; the "Babes in the Woods" its wolf; "Dick Whittington" its cat; "The Wizard of Oz" its lion; "The Babes in Toyland" its dog, and another clever animal impersonation is the Friendly Bear with its two little cubs, which will be seen in "The Top O' Th' World," at the Kentucky theatre soon.

"The Cat and the Fiddle," a musical extravaganza, with Chas. A. Sellon, "The Easy Chap" comedian, is announced for an engagement here at the Kentucky theatre Monday, April 4.

**PADUCAH CONTRACTOR
ERECTS SNUFF BUILDING**
George W. Katterjohn returned last night from Clarksville, Tenn., where he was awarded the contract for the erection of a \$20,000 brick tobacco building, the American Snuff company will have at Mayfield. The contract reads that the work must be completed in 60 days and Contractor Katterjohn will start work next Monday. Gus Lockwood was the successful bidder for the wood work.

DEAN SNOW TALKS TO HIGH SCHOOL

PROPER METHODS OF TEACHING
HISTORY HIS SUBJECT.

He Is Believer In America, Her Mission and Her Future—A Final Address.

IS STATE UNIVERSITY MAN.

Proper methods of instructing pupils in history was the theme of an excellent address delivered this afternoon by Prof. L. F. Snow, dean of the department of education, of the Kentucky State university, at the High school auditorium. The address was replete with splendid points for the teachers of the city schools and the High school students, who composed the audience. Dr. Snow is a pleasing speaker, and he showed a clear insight into his subject.

In the beginning Dr. Snow said "no man liveth to himself and no man dieth to himself." Man is not a social outcome but a social unit; he is a part of his environment; and in his life truth and justice eventually will prevail. He said the great purpose of teaching history is to show the inter-relation of all branches of the human family; and that the four essentials of successful teaching are spontaneity, enthusiasm, versatility and fervent patriotism.

He associated Kentucky with a prominent part in the history of the United States, and said that a native son should not be ashamed of the part his forefathers had taken. He linked the names of Henry Clay, Abraham Lincoln and Jefferson Davis as men of great power, who had influenced the nation. With dramatic effect he told the story of the battle of New Orleans as related by the English soldiers. He said they feared not the roar of the cannon for ever soldier realized that he stood a chance, but in the lines were the marksmen of the Kentucky frontiers, and every time a rifle was raised a shot sped with unerring aim, and a British soldier dropped.

He devoted several minutes of his address to tracing of history of European countries with America. He said that the periods of influence of the United States in the advancement and progress have been epochs of peace. Dr. Snow is optimistic, and he insisted that the national spirit burns as brightly today as in the early days of the republic. He said that the brave deeds of our forefathers inspire the American people, and will have a potent part in shaping the destiny of the nation.

SLAUGHTER OF CHICKENS IN THE CITY A NUISANCE.

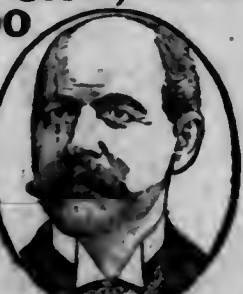

Orders to abate a slaughter house have been given Mrs. Welsh by the board of health. Mrs. Welsh lives on Monroe street between Third and Fourth streets, and on complaint of residents of that vicinity the action was taken. The health officer said that was no ideal spot to slaughter chickens as the property was not properly drained.

"Does she seem to take kindly to society ways now that her husband has made such a pile?"
"Oh, yes, indeed. She was the loudest talker in the house at grand opera the other night."—Cleveland Plain Dealer.

River and eWater.

The river here fell three-tenths of a foot yesterday, marking 14.3 feet this morning. Weather cloudy and business good.

Driftwood.

Capt. George M. Green, of Nashville, a steamboat inspector, arrived in the city last night.

At 2 o'clock yesterday afternoon the towboat J. H. Friend arrived from the Mississippi river with two barges of cotton wood for Cincinnati paper mills.

From Chattanooga, Tenn., the Chattanooga arrived early yesterday afternoon and departed a short time later for Evansville, inaugurating the Evansville trade by the Chattanooga Packet company. She is due back tomorrow afternoon and will leave immediately for the Tennessee.

The Clyde arrived at 6:15 o'clock this morning from the Tennessee with a fair trip. She departed at 7:15 for Metropolis and returned this afternoon. She leaves tomorrow evening at 6 o'clock for Waterloo, Ala.

There was no Evansville packet from here today. The John L. Lowry is due here tomorrow afternoon.

Capt. James Koger, of the St. Louis & Tennessee Packet company, is expected back the latter part of the week from a trip to Cuba and the Bahamas Islands.

The towboat Harry Brown passed up at 3 o'clock yesterday afternoon with empties bound for Pittsburgh. Capt. E. Awalt took a log raft from the Tennessee today delivering it to the Marshall box factory at Metropolis.

The Nashville is due in port today from Nashville.

The J. B. Richardson will arrive from Clarksville tomorrow morning and leave at noon for Nashville.

Wallace "Skeet" Aaron went out second clerk on the Dick Fowler this morning.

The Electra is due tomorrow from Evansville on her way to Nashville. She should have arrived today but was delayed.

The Mary Anderson got away for Caseyville this morning after a tow of coal.

Almost brand new and with her name changed to the Belle Vernon, the John W. Love, the towboat long to be remembered for her harrowing experience in the ice floes the past season, is ready to depart for Mt. Vernon, Ind., this afternoon. Her owner Capt. L. N. Fletcher, has been here several days getting her in shape. She was completely overhauled on the marine ways.

project on the ground that the fault with the river at present is not that the navigation is obstructed used on the rivers for the past fifty years is at fault, and that their design should be changed to accommodate the bridges rather than that the bridges be raised.

The contract for the ferry wharf-boat has been let by the Paducah and Illinois Ferry company to Thomas Cutting, of Brookport, for several thousand dollars. Mr. Charles Robertson returned from Brookport this morning where he closed the deal yesterday. This morning he received a letter from President John B. Rollins of the company, who is in Helena, Ark. He stated that work on the new ferryboat was progressing rapidly and would be out on time, which is May 15.

The U. S. dredge boat Colbert arrived this morning from Colbert shoals, up the Tennessee, for supplies. She will return this afternoon.

IN METROPOLIS

John Jones has returned to his home in Grantburg after a visit with his sister, Mrs. William Perkins.

Lyle Weyers has returned from a trip to St. Louis.

William Kraper has returned from Hot Springs, Ark., where he has been for some time.

Will Still has gone to Kansas City to work.

Everet Cagle, of New Columbia, transacted business here last week.

Miram Quante has returned from Hot Springs.

Mrs. Annie Malcolm has moved here from Mississippi.

Dick Willis has gone north on a business trip.

Mrs. Fannie Davenport is visiting in Chicago.

Mrs. Agnes Baird, of Alabama, is visiting her parents, Mr. and Mrs. Al Oakes.

Willis Ward has returned from a business trip to St. Louis.

Ivy Covington has returned from an outing at Hot Springs.

George Kelly, of Paducah, transacted business here the past week.

Clyde Schroeder was down from Paducah Sunday to visit his parents, Mr. and Mrs. Ben Schroeder.

Ed. Brown, Boner Leonard and Lloyd Helm are home from the state university at Champaign.

Mr. and Mrs. Eugene Lafont visited their relative, Mrs. Fannie Dye, at St. Louis last week.

A. L. Teer, who was arrested under the city ordinance for selling near-her, was acquitted by Judge Barfield Friday, the court holding that he had some doubts as to the legality of the ordinance and that the city failed to prove its case if the ordinance was legal. Marshal Davis had George Rankin secure him three bottles.

A German scientist has invented a so-called duplex compass which by indicating the horizontal intensity of the earth's magnetism gives the approximate longitude and latitude of any place where it may be used.

Don't overdo a thing unless you are also prepared to do it over.

"If" is blamed for most of our failures.

Olivo Tablets Will Cure Constipation.

Constipation may be called the curse of America. Eighty per cent of all people need laxatives often; also need the liver regulated. Constipation is not only uncomfortable but dangerous. Typhoid fever, appendicitis, neuralgia, headaches and various other ailments are often caused by constipation. Look the facts squarely in the face. Don't you need to help the liver and bowels more than you do—don't you need to take fewer chances? Use a mild laxative, one that is designed to cure constipation. Dr. Edward's Olivo Tablets, the one effective substitute for Calomel, acts gently, yet firmly and promptly. You can't estimate their value until you try them.

These little Olivo Oil and vegetable tablets are the result of Dr. Edward's fifteen years' hard study among his patients. Must they not be good? Try them and see for yourself. When you need a physic; when you need something to drive away that dull, torpid feeling, take Olivo Tablets, they will do it pleasantly and surely. At all druggists in neat 10c and 25c packages. The Olivo Tablet Co., Portsmouth, O.

La France

SMOE for WOMEN

The Princess Two-Bar is as cool and comfortable, and has all the low cut effect of the pump. But, unlike some pumps, it fits perfectly, the two straps preventing slipping at the heel

For street or dress wear, it is smart and exclusive

HARRY K. THAW AGAIN
Will Testify in Suit Brought Against His Mother.
New York, March 29.—Harry K. Thaw was brought here from Matamoras, Tex., today to testify in the suit against his mother, Mrs. Mary C. Thaw, by Clifford W. Hartbridge for \$94,000, claimed as due balance for services rendered as counsel and disbursements during Thaw's first trial for the murder of Stanford White. Thaw will be on the stand tomorrow. He is looking well and getting stout.

Notary Public.
My commission expires January 10, 1912.

Daily Thought.
"Never quit when failure stares you in the face. A little more energy often changes a failure into a great success."

A conservation policy in Italy has its problems.

We have a great many traveling salesmen in Paducah; but none like that.

Officers of the Farmers' Union decline to be merged into Mr. Compton's new political party.

The man who beats a mule may be a very smart man; but that is not an infallible sign of intelligence.

Commander Peary should take his Eskimos and make an expedition in search of the heart of the south.

Judging from the number of helices, who elope with chauffeurs, we fear that speed mania persisted in may make one permanently fast.

The redness of the sun, we suspect, is due to good old Paducah dust; but if you are afraid something is going to happen, the best thing to do is get religion.

Dr. Cook didn't come home on that ship; and we wouldn't be surprised if he were lingering somewhere behind the dressing tent curtain near the entrance to the Antares ring, ready to "elown" the south pole act, when the explorers start back for civilization.

If fifty real rough riders are introduced into the Central American war, it would be worth while running steamboat excursions down there to witness the battle. Leaders of opposing forces should be brought together to sign an agreement for a fight just about Mardi Gras (time with a royalty on the moving picture concession).

"The president is wasting time and energy in trying to reconcile the country to Aldrich and Cannon," says the Louisville Post. The president is using his time and exerting his energy in trying to secure Aldrich's and Cannon's votes to measure, which the people demand. Since the people, and not President Taft, elected these two gentlemen to congress, it scarcely behooves any of us to criticize the president, who must needs secure the votes from those, who hold them.

THE YELLOW MONTHLIES.
The Chicago Tribune expresses popular disgust at the trashy articles published in the "uplift" magazines. Its special target is an article in the World's Work about Chicago and her ideals. This contains matter, that was thoroughly exploited in the newspapers at the time of their origin, the material for which is found in the Chicago Commercial club headquarters. Besides the plans for rebuilding the city, the article draws unwarranted conclusions and makes statements, which The Tribune says are absolutely untrue. Pursuing the subject, The Tribune recalls articles in three or four magazines, which pretend to tell the truth, which newspapers suppress, and showed the ingrained "yellow" of their texture. Such magazines as the Outlook and

the Literary Review, which sum up the news of the week, fortnight or month in a manner impossible to the daily press for lack of time and space, and which after compiling the facts in an orderly manner, permit the reader to do his own thinking are invaluable supplements to the press, but the "uplift" magazines and the per editorial comments of Collier's and the Saturday Evening Post, which handle such baffling questions as the postal savings bank in the same casual, flippant manner that they might a satirical observation on contemporary manners, accomplish little good, besides calling to the attention of frivolous minds that these issues actually exist. We do not deny the ultimate value of even the "yellow press"; for it speaks the language of the people to whom it addresses itself, and thus they are put on notice of the trend of public affairs. Maybe, good comes in the end, maybe the ordinary mind wouldn't care for facts without high seasoning; but it is a long way around to the truth that lies so near.

STATE PRESS.

Charles J. O'Malley.
To the many in Kentucky who knew Charles J. O'Malley personally the news of his death in Chicago last Saturday will come with something of the force of a personal bereavement. To the many who knew him only through his contributions to current literature there will be a sense of profound regret that he has laid down his pen forever.

Mr. O'Malley was born and spent the greater part of his life on a farm in Union county. His literary bent was evidenced in his early youth, and from the time that he attended St. Vincent's Academy, near his paternal home, until his departure from Kentucky, he was a frequent contributor to the local papers of his county. He wrote poetry of a high order, much of which in former years found its way into leading magazines and newspapers. Since leaving his farm in 1893 he had been the editor of a number of Roman Catholic publications, including the Midland Review, of Lebanon, and Louisville; the Observer, of Pittsburgh; the Catholic Telegraph, of Cincinnati; the Sun, of Syracuse, N. Y., and the New World, of Chicago. For some years he was a resident of Louisville, and for a time during his residence here he conducted a literary magazine known as the Illustrated South. He was a writer of high repute in the Catholic world and his services were in such demand that in recent years he had devoted no large amount of his time to poetic composition.

Mr. O'Malley was a true son of the soil and an ardent lover of nature. He had the gift of seeing "hooks in brooks and sermons in stones," and he wrote luminously of what he saw. With the poet's keener vision he saw the beauties of wood and field, the lessons of the frostbitten and the summer rains. There was inspiration to him in the songs of the birds, in the whistle of the plowboy, in the shimmer of the growing wheat, in the rustling of the leaves, in the sparkle of the dew, in all the myriad voices and manifestations of nature. Of these things he wrote most frequently, and he wrote faithfully and chastely and well.

It is fitting that he should sleep in the shadow of the old academy of St. Vincent's, near the home of his birth, surrounded by the quiet rural scenes which awakened the fancies of the youthful student and illumined the studies of the mature man.—Courier-Journal.

A FEW CHESTNUTS.

"Who can mention one leading fact about the Epistles?" asked the Sunday school teacher, looking over the class.

Johnny's hand went up.
"Well, Johnny?"
"They were wives of the Apostles."—Everybody's.

The little daughter of a clergyman stubbed her toe and said "dam!"

"I'll give you ten cents," said her father, "if you'll never say that word again."

A few days afterward she came to him and said:
"Papa, I've got a word worth half a dollar."—Everybody's Magazine.

The ashman was raising a can of ashes above his head to dump the contents into his cart, when the bottom of the can came out. Ethel saw it and ran in and told her mother.

"I hope you didn't listen to what he said," remarked the mother.

"He didn't say a word to me," replied the little girl; "he just walked right off by the side of his cart, talking to God."—Everybody's Magazine.

"How many of you boys," asked the Sunday school superintendent, "can bring two other boys next Sunday?"

There was no response until a new recruit raised his hand hesitatingly.

"Well, William?"
"I can't bring two, but there's one little fellow I can lick, and I'll do my damndest to bring him."—Everybody's Magazine.

COLE

SECURES CONTRACT FOR NEW WEST END FIRE STATION.

Contract 1-4 for \$5,037, Lowest Estimate From Several Bidders for Job.

Contractor Jack Cole, who built the third story addition to the city hall and the new Central fire station, was last night awarded the contract to build No. 5 fire station at Broadway and Fountain avenue by the joint finance and public improvement committees of the general council. His bid was \$5,037, the lowest among seven bidders, and he agrees to furnish extra brick not included in the specifications for \$12.50 per 1,000 and make extra excavations for 40 cents per cubic yard. These figures were also the lowest submitted.

Following were the other bids: C. A. Coleman, \$5,914.46; Gus Lockwood, \$5,393; extra brick \$15 per 1,000; J. M. Hyrd, \$5,332; extra brick \$13.50; extra excavations, 45 cents per cubic yard; Robert McMahon, \$5,050; extra brick, \$13 per 1,000; J. W. Lockwood, \$4,995; W. M. Karnes, \$5,272; extra brick, \$13 per 1,000; extra excavations, 40 cents per cubic yard.

Contractor Cole was also given the contract to build a cabinet for the city treasurer's office for \$65.79. Members present last night were: Councilmen Hannin and Horton and Aldermen Stewart and Van Meter, of the finance committee, and Councilmen Hannin and Kreutzer and Aldermen Hank and Stewart, of the public improvement committee.

Kentucky Kernels

Semi-weekly at Danville edited by Louis Landrum and Rupert McGoodwin.

Largely attended mass meeting held at Newport to protest against increased assessment.

W. J. Rice, cashier of Imperial bank of Olive Hill, disappears and bank is in hands of receiver.

ROB UNDER GLARE OF LIGHT.

Yeggs Back Wagon Up to Postoffice and steal \$30,000.

Richmond, Va., March 29.—Under the glare of a street lamp, yeggmens backed a wagon up to the door of the Richmond postoffice either on Saturday or Sunday night, pierced the vault with steel drills and made off with more than \$30,000 in stamps and \$160 in cash. A watchman in the building was undisturbed while the robbers entered through a street window.

The office had closed at 6 o'clock Saturday evening. When a clerk opened the doors Monday morning the robbery was discovered.

Though the thieves evidently had plenty of time, they overlooked an envelope containing \$2,000 in cash.

Blind Horse Runs Away.

A blind horse attached to a light wagon owned by Dick Williams, ran away on South Seventh street about 7:30 o'clock last night and plunged into two large posts, supports of the shed in front of Jake Biederman's grocery at 305 South Seventh street.

Both posts were shattered, the horse slightly hurt and the driver came out unscathed. The animal took fright several blocks south and dashed promiscuously north on Seventh. Repairs are being made to the shed.

JOHN CARTER LIKELY TO GO TO REFORM SCHOOL.

Unless John Carter, a young white boy about 12 years old, improves in conduct he will be sent to the reform school as soon as there is room in the dormitory. Carter was a companion of Gene Scott, the little negro sent to the school several weeks ago, and he has been before County Judge Alben W. Barkley too many times recently.

Carter was picked up yesterday by J. W. Barkley, probation officer, and given another lecture, and a warning that the next offense would mean a term in the reform school. Carter says that he left Paducah with a "blind" man and went to Kuttawa, where they were arrested. While en jail the boy escaped, and caught a freight train and returned to Paducah.

REFUSE WAGE DEMANDS.

Five Thousand Men on New York Central May Go on Strike.

New York, March 29.—The New York Central railroad into this afternoon refused to grant the wage increase of from 8 to 64 per cent demanded by 5,000 conductors and trainmen and the presidents of these unions notified the railroad company that they would order a strike vote. The company offered an increase of from 8 to 25 per cent.

The vote to accept the counter proposition made by the company or to support the national officers of the Order of Railway Conductors and of the Brotherhood of Railway Trainmen will affect all of the trainmen and conductors on the New York Central lines between New York and Buffalo, but will have no bearing on the action of the men on owned or controlled lines, such as the Boston and Albany, Michigan Central, Lake Shore and Michigan Southern and Big Four roads, the negotiations of the employees of these roads with their employers being carried on independently of each other. Presidents Leo and Garretson would not say when they would order the vote, but intimated that the order would go out forthwith.

It is expected that the trainmen and conductors will support the national officers.

Notice.

Prof. John Mahler and wife will open their children's dancing class, Saturday at 3 o'clock, in the Woman's club building.

FIGHTING IN LIBERIA.

Hostile Natives Fire on English Factory and Resided.

Liverpool, March 29.—A fight between Liberians and hostile natives was being waged March 9 at Cape Palmas, according to reports brought by the steamer Salaga today.

The natives from behind a stockade at the mouth of the Palmas river, were firing upon an English factory and the Liberian troops. The latter replied with a machine gun. It is thought that the British cruiser Mutine has gone to the vicinity from Sierra Leon to protect British interests.

A few days ago at the urgent request of the government of Liberia, the United States scout cruiser Birmingham was ordered to proceed to Monrovia.

CHAUFFEUR WEDS HEIRESS.

Elopes With Daughter of Millionaire Silk Man.

Boston, March 29.—When last summer James Dennison took the position as chauffeur for Richard Olds Cheney, the millionaire silk manufacturer of South Manchester, Conn., he little dreamed that within a year he would marry into one of the wealthiest families in Connecticut.

But today Dennison, who is 25 years old, and known as a skilled automobile driver, arrived in Boston with his bride, who was Miss Estie Cheney. Yesterday Mr. and Mrs. Richard Olds Cheney made the announcement that their daughter had married Dennison and this is taken by the happy couple as meaning forgiveness.

They eloped March 6 in Mr. Cheney's automobile and kept their secret until yesterday.

WELLS-FARGO OFFICER DIES.

Dudley Evans, Confederate Soldier, Succumbs to Operation.

New York, March 29.—Dudley Evans, president of Wells, Fargo & company, since 1902, died in a hospital here last night, following an operation last Monday for gallstones. He was 72 years old. Mr. Evans was born in Morgantown, W. Va., and graduated from Washington and Jefferson College in 1859. On the outbreak of the Civil war he fought with the armies of the Confederacy as a lieutenant-colonel of the Twentieth Virginia cavalry, and from 1863 to 1865 was a member of the Virginia legislature. At the close of the war Mr. Evans went west and entered business in Chicago. There he married Miss N. Zelle, and rose rapidly in the service of Wells, Fargo & company. His home was at Englewood, N. J.

WASHINGTON NEWS

(Continued From Page One.)

both houses and probably will engender the hottest fight of any of the provisions.

Republicans in Arizona contend that its recognition would make the proposed new state of Arizona certainly Democratic and would handicap the Republicans in the territory to such an extent that they would not feel inclined to make any fight for political control of the new state.

Hold Separate Elections.

The requirements of the senate bill that the constitutions of the proposed states must be approved by the president and congress is defended by Senator Beveridge as a measure of justice and safety. The same requirement was made in connection with the admission to statehood of Louisiana, Alabama and Texas.

Another decided difference between the senate and the house bill is the requirement in the former that separate elections must be held for the ratification of the constitution and for the selection of state and other officers. A precedent for such a requirement exists in the case of the admission of Colorado.

Striking features of the senate bill are the restrictions thrown about the disposition of public lands and the appropriation of 1,000,000 acres to each territory for the payment of county railroad bonds that already have been validated by act of congress.

Polygamy Provision.

The house bill appropriated 3,000,000 acres to each territory and contemplates the payment of all bonds outstanding. The senate bill would withdraw to the government all of the saline lands of New Mexico.

Another decided change between the two bills is in relation to polygamy and bigamy, of which Senator Beveridge says in his report:

"The house bill would permit the practice of polygamy and bigamy, notwithstanding the various prohibitions thereof."

According to the senate bill the schools in the new states must be conducted in English. The provision of the house bill that this requirement should not prevent the teaching of Spanish was eliminated. The intent of the senate measure is to create an English speaking population, so that there will be no need of in the future generations for an English test as an election qualification today.

Insurgents Wait.

Washington, March 29.—The "insurgents" in the house, who have been considering the proposition for eliminating the speaker's power of appointing committees and investing that function in the house itself, have decided to defer any action along that line until the house has had an opportunity to act upon the legislative program of President Taft.

Representative Haugen, of Iowa, one of the "insurgent" Republicans, and Representative Sims (Dem.) of Tennessee have proposed resolutions to reform the committee situation along that line. Mr. Sims sought endorsement of his bill before the last Democratic caucus, but the caucus was not prepared to act at that time. Mr. Sims has been circulating a call for another caucus to consider his proposition.

Mr. Haugen said he was disposed

—We have the reputation of serving the best coffee in the city. Buchanan's restaurant, 219 Kentucky Avenue.

—The greatest variety of type-written papers from onion skin to heavy ledgers, and in sizes from half letter to legal, at The Sun office.

—Hud Quarles, the well known sportsman, launched a new gasoline motor boat this afternoon at the river. The boat is said to have a speed of 25 miles an hour, and is one of the neatest of the craft seen around the Paducah harbor. The boat fairly skims over the surface of the water.

Steamship Line to Panama.
Washington, March 29.—Representative McLaughlin, of California, has taken up with Secretary of War Dickenson the question of utilizing army transports on the Pacific coast to establish a government steamship line to be connected by the Panama railroad with the government owned line on the eastern coast. Mr. McLaughlin has discovered that five of the eighteen government transports are now idle in the ports of New York and San Francisco and might be available for that use.

Coal dealers' books show that the consumption of coal for the winter in New York city will amount to one ton for each inhabitant, or about 4,300,000 tons in all.

Mr. Charles Q. C. Leigh, of Chicago, arrived in the city this morning.

True Havana Flavour

That's the something which all cigar smokers are seeking and which few of them ever taste.

There's a new HUMIDOR in our cigar cases, though, which gives perfect aroma to every cigar in the case. It's a scientific innovation which keeps a stream of clean fresh air, of just the proper humidity and temperature circulating into every corner of the case. There's no more of that dry, flat, dusty taste.

Try one of our good cigars today and see the difference.

IN SOCIAL CIRCLES

Theatre Party.
A party from Smithland attended the "Traveling Salesman" at the Kentucky theater last night. They returned home today. In the party were: Mr. and Mrs. J. Ford Abell, Mr. and Mrs. F. M. Bush, and Misses Pearl Robertson, May Fleming, Helen Dunn, Mary Thorp, Hattie Davis, Lizzie Dunn and Messrs. D. A. Dunn, Jr., and Lal Threlkeld.

Enjoyable Dance by Machinists' Lodge.
The Easter ball of the Plain City Lodge of Machinists No. 123 last night in the Three Links hall room was a most enjoyable affair. Over one hundred couples were on the floor. The arrangements were for a large crowd and all were easily accommodated. A pleasant evening was enjoyed by all. The dancing continued until early morning. The committee on arrangements was: J. E. Bell, Charles F. Seamon, Charles Mercer, Joe Danaher and Ollie Holsch. The floor committee was Thomas Bowlen and Thomas Holsch.

Easter German This Evening.
The German club will have its Easter Cotillion tonight at the Palmer. It is one of the first of the post-Lenten entertainments and will be an elaborate function. A number of out-of-town guests will be present for the event. The German will begin at 9:30 o'clock. At 11 o'clock a buffet supper will be served.

Marriage at Gilbertsville.
Miss Nina Pace and Mr. Charles Williams were married at Gilbertsville by the Rev. T. W. Gregory, Sunday afternoon at 2 o'clock in the presence of a few intimate friends. The bride is the daughter of the late H. Pace and is a popular young woman. Mr. Williams is a well known farmer of that vicinity.

A Coming Event.
Mrs. E. L. Melroy and Miss Ada Thompson will receive at the Woman's club house on Friday, April 8, from 4 to 6 o'clock. Invitations will be issued the latter part of the week.

Sewing Bee With Mrs. Campbell.
Mrs. Andrew Campbell will entertain the Sewing Bee on Thursday at the Cochran apartments.

Delphi Club.
The Delphi club met this morning at the Delphi room in the Carnegie library. In regular weekly session. The program was a delightful discussion as follows:
1. First Great Novelists, Defoe, Fielding, Smollett, Richardson—Mrs. E. G. Boone.
2. Milton, the Puritan Poet—Mrs. Davis.
3. Historic London—Mrs. J. C. Flournoy.

Delegates Go.
Delegates from the Fountain Avenue and Broadway Methodist churches left this morning for Dyersburg, Tenn., where they will attend the conference of the Woman's Home Missionary society. From the Fountain Avenue Methodist church Mrs. H. T. Davis, Mrs. J. C. Martin and Mrs. J. M. Gentry attended, while Mrs. W. J. Mezey went from the Broadway Methodist church society.

Deaths Filled.
Tony Isenman and John Isenman, to W. C. Bridges, property at the southeast corner of Fourth and Norton streets, \$400.

Kimpson Goes Afloat.
James Kimpson, who was charged with converting money of another to his own use, was dismissed of the charge before Magistrate C. W. Emery. Kimpson is now alleged, acted as agent for J. Stanley, of Hickory Grove, for the sale of a horse, and failed to turn over the \$1000 proceeds.

Mrs. Longworth Heirress.
Gets Part of the Estate of Rich Grandfather.
Boston, March 29.—Mrs. Nicholas Longworth is one of half a dozen beneficiaries to share in the income from half the estate of her grandfather, George C. Lee, which was probated today. Mr. Lee was a banker of this city and his total estate is valued at several million dollars.

They Got Over It

Says Old Squire Jones to Neighbor Brown,
I'm really liking to go to town. I've such an itching in my bones. My head feels like a hive of bees. I sneeze and cough and blow and wheeze.

Says Neighbor Brown—Now that I feel the same. So take this money.
You know the place that has both Phones
And get (2) bottles of Rock Rye and Honey.

It stops the cough and cures the wheeze.
Quells the bees and kills the sneeze.

SO CAN YOU.
Both Phones 237.

NO SLAVERY TO WORK

Finds It Easy to Do Her Housework, After Taking Cardul, the Woman's Tonic, for Her Weakness.

Desk's, Va.—"I had serious female troubles, lasting 40 days at a time," writes Mrs. Mary A. Vandjke. "I took medicine from two doctors, but it seemed to do no good. I was so weak I could hardly walk, so I wrote you for advice, and got a bottle of Cardul. In a few days I was better. Now I feel like a new woman. I am doing my work and praise your medicine every day. I advise all my friends to try Cardul, the best medicine for women on earth."

If you suffer from any form of womanly weakness or irregularity try Cardul, the woman's tonic. It helps nature to perform a cure in a natural, easy way.

Its ingredients are mild herbs, having a gentle, tonic effect, on the female constitution.

It makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks fresh and rosy.

Many ladies have written to say that Cardul is worth its weight in gold. If you are a woman, try it.

Your druggist sells it, with full instructions for use.

Dr. C. V. Makes Appointments.
New Orleans, March 29.—The following appointments were announced today by William E. Mikel, adjutant general and chief of staff of the United Confederate Veterans:

Brigadier generals and assistant adjutant generals, Julian W. Whitling and Price Williams, Jr., of Mobile, Ala.

Colonels and aides de camp, C. C. Nettles, Robert Middleton, D. P. Bestor, Ed T. Toomer, William H. Johnston, of Mobile, Ala.; George W. Taylor, of Decatur, Ala.; John H. Leathers, of Louisville, Ky.; John W. Trench, of Gainesville, Fla.; R. Preston Crew, of Charleston, W. Va.; E. L. Coady, of Atlanta, Ga.

Rev. R. L. Cave, of Nashville, Tenn., was named as chaplain general, and Dr. J. S. McDonough, of Knoxville, Tenn., as colonel and assistant surgeon.

Mrs. H. H. Doyle, 1519 South Sixth street, is able to be up after being confined to her bed with the grip.

Paper Strike Fails.
Franklin, N. H., March 29.—Apparently having given up all hope of organizing the employees in the International Paper company's mills here, President Jeremiah T. Carey, of the Brotherhood of Paper Workers, left town early today.

Mr. Carey came here from Washington yesterday and addressed a meeting of the machine tenders, the workmen who refused to join the striking pulp mill employees. He attempted first to "organize the union, but was unsuccessful, and the machine men voted not to join the strike.

The plant was in full operation today with the exception of one small pulp mill.

Superintendent John T. Mulcahy, of the local plant, said that he was satisfied that there would be no further strike here. The pulp workers and others who quit work last week, he said, would not be taken back.

Curiosities in Names.
The new issue of the London directory provides some curiosities in names. Sebastian Bach is a horse dealer, Robert Bruce and John Bunyan are green grocers, John Milton is a chandler and James Howell, a mason. William Shakespeare is the name of a bristler, a tailor and a van builder. There is a Crusoe and also a Gulliver. Julius Caesar is a chemist. Livy keeps apartments. Homer is a lighterman. Pindar an electrical engineer. Mars roasts beef, and Venus, not inappropriately, sugar candies. Francis Bacon is an architect and Haydn a dairyman. And what could be better for the name of a saddler than Whippy?—New Orleans States.

Great Age of Halley's Comet.
While Halley's comet has been identified as a member of our system for over 2,000 years, certain characteristics of its orbit lead us to believe that it has been with us at least once or perhaps one hundred times as long as that. According to all accounts, it was a magnificent object at the time of the Norman conquest in 1066. Its head was equal to the full moon in size, and its tail increased to a wonderful length.—Century.

What Socialism Disregards.
Socialists plant themselves firmly on the postulate that present economic conditions, the unequal distribution of wealth, are responsible for the differing conditions of men. The redistribution of wealth would make all men equal, all men happy and contented. The Socialists overthrow, by paying no attention to it, the belief somewhat widely held that it is the inequality in the capacities and in the ambitions, temperaments and dispositions of men that have made economic conditions unequal that have brought the reward of accumulations to the industrious and the thrifty, and have visited the penalty of narrow circumstances upon the improvident and the prodigal.—Century.

An English agricultural society is raising a fund with which to exterminate the sparrow.

GEO. ROCK SHOE CO.

BEST BY TEST FIT—JUST TRY 'EM.

WITH THE SICK.

IF R. Williams, 50 years old, was removed from his room at the New Richmond hotel to Riverside hospital yesterday evening in Nance & Rogers' ambulance. Williams is very ill.

Mr. Tobie Steger, of 329 South Fifth street, is still confined to his bed as the result of injuries sustained in a street car accident ten days ago.

After being confined at home for over two weeks, Miss Clara Stewart, of 1200 West Broadway, was able to return to school this morning, to the delight of her many friends.

Mr. T. A. Baker, cashier of the First National bank, is ill at his home on North Ninth street, from the after effects of grip.

U. C. V. Makes Appointments.
New Orleans, March 29.—The following appointments were announced today by William E. Mikel, adjutant general and chief of staff of the United Confederate Veterans:

S.S.S. CURES BLOOD POISON

Every symptom of Contagious Blood Poison suggests a deeply poisoned condition of the circulation. No portion of the body is free from its contaminating influence, and its blighting effects are even stamped on innocent childhood if the ancestral blood is not rid of the infection. Contagious Blood Poison begins in an insignificant manner, usually the appearance of a tiny pimple or sore being the only outward evidence of its presence. But down deep in the blood the treacherous virus is at work and in a short time the victim finds himself affected from head to foot. The mouth and throat ulcerate, skin eruptions break out, sores and ulcers appear on the body, yellow blotches disfigure the skin, the glands of the groin swell, and often the hair and eyebrows come out.

The only possible way to cure Contagious Blood Poison is to remove the cause from the blood. Mercury, Potash, etc., are often used with the idea that such strong treatment will kill the germs and thus produce a cure; but this is a mistaken idea—THEY MUST BE REMOVED FROM THE CIRCULATION. This is proven by the fact that there are thousands who took the mineral treatment for months, or even years, and when it was left off found the poison was still in the blood.

The ability of S. S. S. to cure Contagious Blood Poison comes from its blood purifying properties. It goes into the circulation and REMOVES every trace of the poison, makes the blood pure and healthy, and leaves no dregs of the trouble to break out later on, or to be transmitted to innocent offspring. S. S. S. is made entirely of roots, herbs and barks, each of which has a direct and specific effect in purifying the blood. S. S. S. is Nature's blood purifier, scientific and sure in its action, and so valuable are its tonic effects that the entire system is left in fine physical condition. Home Treatment book sent free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

WRIGHT TRIES A NEW ENGINE

EXPRESSES PLEASURE AT HIS SUCCESS IN ALABAMA.

Noted Aviator Declares There Is No Chance of Another Disaster Like at Ft. Myer.

NO MORE ACCIDENTS PROBABLE

Montgomery, Ala., March 29.—Orville Wright made his initial flight in this city this afternoon, when, in trying out a new engine, he soared for four minutes at an altitude of fifty feet. He expresses pleasure at his first success in Montgomery.

Just to look at Orville Wright one would not take him to be a man, who, with a wonderful invention, has startled the world. He is a modest sort of fellow, with a cordial smile and fraternal temperament, and seems to be quite fond of people. He talks interestingly of the many countries where his machines have been exhibited and has found much to interest him outside his nirship investigations.

Mr. Wright is using at Montgomery the same machine that his brother used in flying about the statue of Liberty in New York harbor, only he is installing a rear portion, taking somewhat the nature of a tail, in which the rudder will be held. He came down somewhat hurriedly from Dayton when he found the workmen were ready to attach this new portion. There is ever so much more of this part of the machine than before, and it is anticipated that it will add greatly to the handling of the apparatus in mid air.

People May Witness Flight. Many persons are expected to visit the city and the grounds while Mr. Wright and his men are here. There will be no set time for the try-outs, the flights being governed by the condition of the weather. The purpose of the work here is to train men to handle the aeroplanes, and will be a case of getting in every good hour possible in the education field out. There is so much of a demand for the machines that the factories cannot fill it, so it is necessary to get as many men as possible in training for handling them.

Those who care to go to the grounds will be welcome, though they may or may not see a flight. "However," says Mr. Wright, "any who come on fine days may depend almost upon seeing one go up. We have a lot of experimenting to do for the first few weeks and it is going to be up and down right often I take it." No program will be made out and there is plenty of field to sit apart and see what is being done. Visitors to the shops are welcomed so long as they do not get in the way, and there is no attempt to conceal the big car from view.

Accident Is Recalled. Asked if he lost his nerve after being hurt at Fort Myer two years ago—an officer of the army was killed at the time—Mr. Wright replied in the negative. Twice before that time he came much nearer to being killed, though neither time was he injured. Once the machine crumpled up just over his head, when, if it had caught on his neck, death would have been certain, and the other time it crumpled onto his shoulders, a part of the construction being broken in such a way as to relieve his body from pressure.

The Fort Myer accident could not be repeated. It resulted from a wire becoming entangled in the propeller. No one could have anticipated such a result, and like every other important detail, this was discovered as a result of experimenting. The Fort Myer accident, too, was a result of not being high enough in the air. If the machine had had as much as one thousand feet more to fall it would have caught the air and sailed to comparative safety.

Capt. Bogardus Again Hits the Bull's Eye.

This world famous rifle shot, who holds the championship record of 100 pigeons in 100 consecutive shots, is living at Lincoln, Ill. Recently interviewed, he says: "I have suffered a long time with kidney and bladder trouble and have used several well known kidney medicines all of which gave me no relief until I started taking Foley's Kidney Pills. Before I used Foley's Kidney Pills I was subjected to severe backache and pains in my kidneys with suppression and oftentimes a cloudy voiding. While upon arising in the morning I would get dull headaches. Now I have taken three bottles of Foley's Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and once more feel like my own self. All this I owe solely to Foley's Kidney Pills and always recommend them to my fellow sufferers."—Gilbert's Drug Store.

Floor Breaks Under Funeral.

Funeral services of Mary Tyler, an aged negroess who died last week, were disturbed Sunday afternoon by the floor breaking through at the African Christian church at the corner of Seventh and Trimble streets. When the floor broke through there was lively scrambling for pieces of safety, and Miss Woolfolk, an aged negroess, dropped through a hole in the floor, and her leg was fractured.

ASK YOUR NEIGHBORS

And you will generally find that they know of more good, intelligent people, those of good sense and discernment in your vicinity who have been cured by Dr. Pierce's World-famed Family Medicines than by all other proprietary medicines. They have been making these cures right along for over forty years and altogether likely you will easily find people all about you who will be only too glad to say a good word for them. These old reliable curatives are not exploited or urged upon the afflicted by extravagant and false promises but have a record of real, genuine cures to sustain them.

Among women Dr. Pierce's Favorite Prescription is truly a favorite by reason of its remarkable cures which, for over forty years by far exceed those which can be credited to any medicine extant. By a little inquiry you will no doubt find some of these cured and grateful cases in your immediate neighborhood, for they are to be met with practically EVERYWHERE. They are Dr. Pierce's best advertisements. Seek their advice if you are a poor despondent over-burdened broken down, weak, or pain-wracked woman, suffering from some derangement or weakness incident to your sex.

The People's Common Sense Medical Adviser in plain English, by R. V. Pierce, M. D., (new fully revised up-to-date edition) gives all particulars which women need to know about their peculiar functions and how to correct ordinary derangements and weaknesses. Cloth-bound volume of 1000 pages, 31 one-cent stamps, or in paper covers for 21 cents, post-paid. Why not send for it NOW? The New Edition is almost a household necessity. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y. DR. PIERCE'S PLEASANT PELLETS ARE A MILD BUT EFFICIENT PHYSIC.

THEY MUST KNOW

The Evening Sun's Daily Markets.

Tobacco Market. Hopkinsville, Ky., March 29.—Dealing in hoghead tobacco opened up in earnest last week on this market, though all sales made were unskipped privately. Last week's sales amounted to about 200 hogheads, sampling and selling going on every day. As has been predicted all grades were in demand and prices ruled high. There were no fine grades offered and prices on that which was sold ranged from \$7.50 to \$15 per hundred, but quotations are running as high as \$18, and this price will doubtless be realized. Loose tobacco continues to come in sufficiently to keep the market fairly active despite the depleted supply and the unsuitable weather.

Live Stock. Louisville, March 29.—The receipts of hogs were 2,247 head as against 1,991 last Tuesday, 3,593 a year ago, and 5,134 two years ago. The market was slow in opening, and prices declined 10c on light hogs and pigs, while tops and roughs sold steady; selected 165 lbs. and up sold at \$11.139 lbs. to 165 lbs. \$10.60; pigs ranged from \$8.85 to \$10.15, roughs 10.30 down. The pens were well cleared and the market closed steadily to firm.

Cattle. The receipts of cattle were 1,403 as against 1,015 last Tuesday, 979 two weeks ago, and 1,464 a year ago. There was a good crowd of local traders and butchers in evidence this morning, and a few out-of-town buyers, yet every one seemed to realize from the start that there were enough cattle on sale to go around, and the trade lacked the activity of last week; choice butcher cattle were ready sale, some early sales about steady, but mostly a decline lower, medium and common kinds and cows of off quality were 10@15c lower. There was a good call for high-grade feeders and stockers, but few of that class here, medium and common stockers neglected and 15@25c off. Bulls strong, canners and cutters lower. Milch cows unchanged. Several loads heavy steers here, one fancy load topped the market at \$7.75, yet they were regarded as at least 10c per 100 lbs. better cattle than those that sold at the same price last Tuesday.

St. Louis Live Stock. St. Louis, Mo., March 29.—Cattle—Receipts 2,500, including 400 Texas; market steady. Hogs—Receipts 7,000; market strong; packers \$10.60@11; butchers and best heavy \$10.75@11.00. Sheep—Receipts 2,500; market steady; native muttons \$5@8.50; lambs \$7.25@10.60.

Big Cattle Rush. TEXAS RAILROADS REPORT RECORD MOVEMENT. Scarcity of Grass On Ranges and Light Rain in Lone Star State Cause of Rush.

Austin Tex., March 29.—The biggest rush of cattle from South Texas to the pastures of Oklahoma in the history of the live stock industry, is now in progress, according to representatives of the railroads handling the movement. It is stated that more than 130,000 head of cattle will be shipped from the ranches south and west of San Antonio during the period of four weeks that will end about April 15. Shippers have already placed orders for about 4500 cars, in which to move their stock and the railroads are receiving additional orders every day.

The heaviest movement will not take place until the first part of April, as it will not be until then that the pastures in Oklahoma will be capable of taking care of the stock properly, it is stated. The cause

of this unprecedented rush is the scarcity of grass upon the range below here. There was a big shortage in rainfall during the past winter and the drought this spring has been unusually severe. Many of the pastures are practically bare of grass and the cattle are lying upon the leaves of shrubs and the prickly pear. It is stated by the traffic representatives of railroads that comparatively few fat cattle are now moving to market from Texas. The scarcity of "grassers" is greater than for many years. It is planned by the railroads to run the cattle shipments to Oklahoma in solid trains.

Would Have Cost Him His Life. Oscar Bowman, Lebanon, Ky., writes: "I have used Foley's Kidney Remedy and take great pleasure in stating it cured me permanently of kidney diseases which certainly would have cost me my life."—Gilbert's Drug Store.

Benett E. Cash. Mayfield, Ky., March 29.—Benett E. Cash, one of the pioneer settlers of the Fancy Farm section, died at his home near Fancy Farm, after an illness of eight days, of pneumonia. He was 76 years of age and was born in Washington county, this state. He came with his father when quite a lad when a colony of people came from Washington and other counties and settled at Fancy Farm. All of the people in that section are members of the Catholic church, and Mr. Cash, who owned thousands of acres of land, was one of the men who was the cause of such a large and handsome church being erected, as well as the big college that was built last year. Mr. Cash leaves scores of relatives in this county, besides twelve children, one of whom is Mrs. Ed Gardner, of Mayfield.

THE NASTY HOUSE FLY.

Unseasonable March has brought forth the pesky homely, the greatest foe to the human system for sickness. A determined fight against the pests has begun in the city health department and how to get rid of flies to prevent the carrying of contagious diseases is a matter easily explained. First get rid of manure piles, said the health officer this morning. This will protect the people more than any other means the department can think of. Rid the houses of flies and screen the windows and doors. Screen the ash barrels and places where flies are naturally inclined to flock. Flies coming into the dining room, alight on the tables and the germs on their feet are spread. The fly is more productive of sickness than any other insect, the mosquito included. The fly causes tuberculosis, typhoid and malaria, and if the residents will act in accordance with the plans of the health department this will be a healthy community this summer.

Foley's Kidney Remedy will cure any case of Kidney or Bladder trouble that has not beyond the reach of medicine. No medicine can do more.

SUIT AGAINST BROKAW.

Dressmakers Want \$2,140 for Gowns Purchased by Wife.

New York, March 29.—W. Gould Brokaw, the millionaire yachtsman, whose wife recently won reputation and a \$30,000 annuity from him, may have to pay his wife's bills. Two New York dressmakers have sued Brokaw for \$2,140 for gowns. Brokaw declared the gowns were a luxury and not a necessity. He asked for the dismissal of the suit but Justice Pitman, of Lincoln, L. I., today denied this and ordered the case on the calendar.

Home Course In Live Stock Farming

III.—Live Stock Farming and Soil Fertility.

By C. V. GREGORY,
Author of "Home Course in Modern
Agriculture," "Making Money on
the Farm," Etc.

Copyright, 1909, by American Press
Association.

WHENEVER grain is grown
continuously for a number of
years the soil decreases in
yielding power. If the prac-
tice is kept up the yields will finally
become so low as to be unprofitable,
and the land is said to be worn out.
The fact is it is not worn out any
more than a sickle is worn out when
it becomes too dull to cut. Both the
sickle and the soil need a certain
amount of treatment before they are
in shape to use again.

In the case of the soil nature will
restore it to its original productivity

FIG. V.—HOW FERTILITY IS WASTED.

If given time. Crops of weeds will
spring up, make a considerable growth
and die down and rot. In the course
of a few years the humus supply will
be renewed, locked up elements of fer-
tility will become available, and the
field will again produce profitable
crops.

If rotation is practiced so as to even
up the demands on the soil, with
clover or some other legume to gather
nitrogen from the air, the soil will
continue productive for a much longer
time. Even then it will not keep on
yielding profitable crops always. Com-
mercial fertilizers may help to stave
off the day of reckoning, but after the
farmer has contributed hundreds of
dollars to the pockets of the fertilizer
manufacturer he will find that even
this method of maintaining fertility
cannot be depended upon.

Keeping the Soil Productive.

There are three factors on which
the productivity of the soil primarily
depends—the amount of available min-
eral plant food elements which it con-
tains, its physical condition and the
amount of moisture it will hold. Ni-
trogen, one of the three most important
chemical elements in the soil, can be
obtained from the air in unlimited
quantities by the use of legumes, such
as clover and alfalfa. The other two,
phosphorus and potassium, are present
in most soils in fairly large quantities,
although much of the supply is in
unavailable form. Good tillage and
well planned rotations do much to
make these elements available. When
the total supply becomes low it can
be renewed by the application of fer-
tilizers. This is all, however, that fer-
tilizers will do. They will not im-
prove the physical condition of the
soil nor increase its moisture holding
capacity.

The use of liberal amounts of clover
in the rotation will add to the humus
supply of the soil and so increase its
moisture holding capacity. Humus
acts like a sponge, forming a store-
house for water that would otherwise
be wasted. Humus also improves the
physical condition of the soil, making
it lighter and mellow. Take a paul-
ful of clay and a paulful of rich black
surface soil, wet them thoroughly and
place them in the sun. When the clay
is dry it will be baked almost as hard
as a brick, while a little stirring will
make the black dirt as mellow as ever.
This difference in the two soils is due
solely to humus.

The humus supply cannot be main-
tained by the use of clover unless a
crop is plowed under at frequent in-
tervals. It takes considerable time
for this clover to rot enough to form
humus, and the turning under of so
large an amount of green matter at
once is liable to make the land "sour."
This condition can be corrected by the
use of lime, but this means trouble
and expense.

The Value of Manure.
The only way to keep the soil in the
highest possible state of productivity
is to keep live stock and apply the
manure to the land. Barnyard manure
adds large amounts of the elements of
fertility to the soil. An average of
80 per cent of the nitrogen, phosphorus
and potassium in the food eaten is
passed out in the manure. This per-
centage is highest in fattening animals
and lowest in young stock. The ele-
ments of fertility removed when grain
is sold as compared with those remov-
ed by live stock are strikingly shown
in the following table. The prices of
the elements are figured at the approx-
imate rate that would have to be paid
if they were purchased in the form

of commercial fertilizers. The approx-
imate yield of one acre is given in each
case:

Kind of crop.	Value of the nitrogen, phos- phorus and potas- sium contained.
Corn—	
Grain, 75 bushels.....	\$15.00
Stover, two tons.....	8.25
Total.....	\$23.25
Oats—	
Grain, 50 bushels.....	\$5.41
Straw, 1½ tons.....	4.86
Total.....	\$10.27
Wheat—	
Grain, 25 bushels.....	\$5.15
Straw, 1 ton.....	2.60
Total.....	\$7.75
Timothy, 2 tons.....	\$10.74
Potatoes, 300 bushels.....	18.41
Fat cattle, 1,000 pounds.....	1.00
Fat hogs, 1,000 pounds.....	3.12
Milk, 10,000 pounds.....	10.11
Butter, 500 pounds.....	19

This table shows at a glance the
great economy, considered from a fer-
tility standpoint, of marketing grain
in the form of live stock. Adding fer-
tilizing materials to the soil, however,
is only one of the ways in which man-
ure is beneficial. It helps to break
down the unavailable nutrients in
the soil ready with the soil. Thus the
physical condition and winter holding
capacity of the soil are improved even
more than where clover is used. In-
stead of plowing under clover it can
be fed. The resulting manure will do
the soil almost as much good as the
clover would if turned under. Thus
both the feeding and fertilizing values
are obtained from it. By using a regular
rotation with clover and feeding all
the rough feed and most of the grain
on the farm the soil can be brought
up to a very high state of productivity
and kept there for an indefinite period
of time.

In an experiment at the Ohio experi-
ment station where manure was ap-
plied every three years to a rotation
of corn, wheat and clover at the rate
of eight tons to the acre the average
increase in yield was 14.7 bushels of
corn, 8.36 bushels of wheat and 656
pounds of clover. The value of the
increased yields due to the eight tons
of manure was \$17.32, or \$2.17 per ton
for the manure. This was for manure
that was obtained in the open yard.
Manure that had been tramped down
in sheds where it was under shelter
had a value of \$2.95 per ton in increas-
ed crop yields.

The results obtained on a little run-
down farm in Pennsylvania strikingly
show what can be done with manure.
This farm was so badly exhausted
that it would produce scarcely any-
thing. Dairying was introduced and
the manure applied to the land. After
a few years of such treatment and
without the addition of any com-
mercial fertilizers whatever the prod-
uctivity of the farm was so greatly in-
creased that an annual revenue of \$200
to the acre was received from it.

The effect of manure continues for
a great many years after its applica-
tion. Experiments with manured and
unmanured land have shown that the
yield in the manured plots was con-
siderably greater twenty years after
the last application of manure was
made.

Applying Manure.

The best results are obtained, how-
ever, when manure is applied fre-
quently and in comparatively small
amounts. For the ordinary field
crops an application of eight tons to
the acre is sufficient at one time. To
get the required amount on each
acre and to get it applied evenly in
spreaders is a necessity. Manure spread
evenly over the ground is much more
effective than that thrown about in

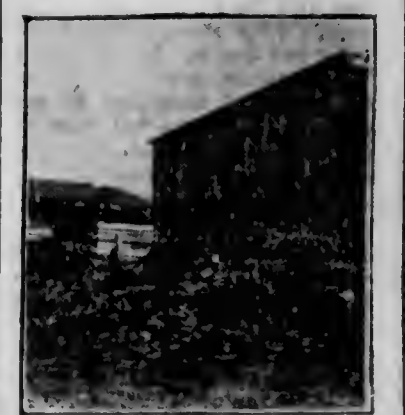

FIG. VI.—MANURE PILE IN OPEN YARD.

large chunks, as is usually done, with
a pitchfork. Still worse is the prac-
tice of dropping the manure in piles,
leaving it nearly all winter and then
toward spring scattering it about with
a fork. In addition to spreading the
manure more evenly, the spreader
saves work enough to warrant any
one who has much stock in buying
one.

The spreader should be kept in use
practically the year round. Manure
left in the open yard for six months
loses nearly half its fertilizing value.
Manure kept in sheds does not lose in
value nearly so rapidly. A practice
that is sometimes followed on dairy
farms is to have a shed in connection
with the barn, keeping the cows in this
shed most of the time, turning them
into the barn only long enough to be
milked. A plan that is preferable to
this is to have a small shed over the
door where the manure is thrown out.
The spreader can be backed into this
shed and the manure loaded directly
on to it at seasons of the year when
manure can be spread directly upon
the fields. At other times the manure
can be thrown out into the shed and
left there until it can be hauled.

HEALTH AND VITALITY

The great nerve and brain treat-
ment for men and women, produces
strength and vitality, builds up the
system and renews the normal vigor.

sued in all countries which thus pro-
tect their inventors from the earliest
date to December 1, 1909, was 2-
999,433.

ARSENIC CAUSED MOODY'S DEATH

EXPERTS INVESTIGATE CASE OF WEALTHY CHICAGOAN.

Shrouded in Mystery—No Arrests
Made But Servant Is Under
Surveillance.

EATING HAMBURGER STEAK

Chicago, March 29.—That Alex-
ander J. Moody, whose death on
February 20 was attributed to pro-
nounced poisoning, really died from
the effects of arsenic, was the start-
ling assertion made by Coroner Hoff-
man.

That the poison was contained in
a hamburger steak eaten by the de-
ceased seems clear to the authori-
ties. No arrests have been made
but a woman of Moody's household
and one of his employees are under
surveillance.

Moody inherited the fortune of
his father, founder of the pie firm of
Moody & Waters. Moody occupied
a fine residence in this city, owned
a summer residence in Wisconsin,
and a farm at St. Charles, Ill.

The rest of the family partook of
the meal without ill effects. Moody
ate a left-over portion left in the ice
box, prepared by Agnes Hartwick, a
servant. Miss Hartwick ate bread
dipped in the gravy from the meat
and was taken violently ill.

Dr. F. S. Hartman was called to
attend Moody, but the patient died
while the servant recovered.

Dr. Hartman admits securing the
remaining portion of the steak and
giving it to Dr. Walter Haines, the
chemist whose name is familiar in
the Swope case at Kansas City, for
analysis. The latter, in a report to
the coroner, which was suppressed
until today, stated that the meat
contained enough arsenic to have
killed half a dozen persons. The
kidneys, heart and stomach of the
deceased, according to the coroner,
also showed pronounced traces of
the poison.

Detectives have kept a close watch
on all who might shed any light on
the mystery. An officer is at St.
Charles, Ill. Peter Peterson, also
known as Peter Rolley, in the em-
ploy of the Moody household for fif-
teen years, is said to be there. He
had a room at the Moody residence.

A year ago Moody is said to have
narrowly escaped poisoning in some
soup. A servant, who had previous-
ly tasted it was later seized with
cramps. Moody merely tasted the
dish.

Peterson, or Rolley was then at the
house, but left before the meal, re-
turning later, according to Miss Hart-
wick.

Moody's attorneys deny the report
that a \$30,000 check destined for
Kansas City disappeared at the time
of Moody's death.

Moody is said to have carried in-
surance of \$15,000 in favor of his
wife. Her maiden name was Anne
Olson. They were married twenty-
five years ago.

No Substitute.

Accept no substitute for Foley's
Honey and Tar. It is the best and
safest remedy for coughs, colds,
throat and lung troubles. Contains
no opiates and no harmful drugs. Re-
member the name, Foley's Honey and
Tar, and accept no substitutes.—Gil-
bert's Drug Store.

"You women would rather talk
than listen." "Not always." "When,
for example?" "When a man is
about to propose."—Judge.

39 INDICTED BY CAIRO JURY

BODY EMANELLED TO PROBE
MOB GROWS ACTIVE.

Property Owners and Tenants Both
Under Ban of Law as Aiding
in Inciting Riot.

CRUSADE AGAINST RESORTS

Cairo, Ill., March 29.—The special grand jury, impaneled to investigate the mob which attacked Alexander county jail on the night of Feb. 17, last, springing another surprise this afternoon by reporting indictments against the owners of every resort on Thirteenth street, Cairo's red light district. The matter was brought to the attention of the grand jury by the Social Purity League organization, called into existence to clean up disorderly houses which have become scattered over the city. Failing to get direct evidence against any except those in the segregated district of the city, the grand jury found indictments against tenants and against the owners of the property, as follows: Michael McFarland, L. A. Rink, manager of the Zerkass estate; J. Murat Gibson, Clarence Nichols, Herbert Gist, John Walter, John Sullivan, Robert Jones and Hattie O'Farrow.

The grand jury found thirty-nine true bills and examined 139 witnesses. A peculiar feature of the situation is that three members of the grand jury are interested indirectly in property against the owners of which indictments are brought. The jury in its report says that it finds the city authorities "are either unable or unwilling to bring about the much needed and continuously solicited reforms; feel it incumbent upon themselves to apply more strenuous measures, and such as cannot be misconstrued or ignored," and urged that the county commissioners appropriate funds for the use of the sheriff in the employment of sufficient reliable deputies to enable him to enforce the law.

The coming man is really the one who is always on the go.

STOMACH MISERY.

Get Rid of That Sourness, Gas and Indigestion.

When your stomach is out of order or run down, your food doesn't digest. It ferments in your stomach and forms gas, which causes sourness, heartburn, foul breath, pain at pit of stomach and many other miserable symptoms.

Milton's stomach tablets will give joyful relief in five minutes. It takes regularly for two weeks they will turn your flabby, sour, tired out stomach into a sweet, energetic, perfect working one.

You can't be very strong and vigorous if your food only half digests. Your appetite will go and nausea, dizziness, biliousness, nervousness, sick headache and constipation will follow.

Milton's stomach tablets are small and easy to swallow and are guaranteed to banish indigestion and any or all of the above symptoms or money back.

Fifty cents a large box. Sold by druggists everywhere and by Gilbert's drug store.

For constipation there is no remedy so satisfying as Booth's Pills—25 cents.

IT WAS ECZEMA.

Scalp Trouble Puzzles Specialists but Was Easily Cured.

A few months ago the case was reported of a little girl living in Hackensack who was sent to three different hair specialists in New York for treatment of a scalp affection which they considered a contagious disease. One went so far as to have her hair shaved off. Later the trouble was found to be a simple case of eczema, which was cured in a few days by poslam.

In the various forms of skin troubles in both infants and adults, poslam produces beneficial results from the first application. Eczema, acne, herpes, rash, tetter, etc., yield readily to its remarkable curative properties. Occasional applications will quickly banish pimples, blotches and complexion blemishes and will relieve and cure itching feet, scaly scalp, humors, etc.

Poslam can be had for 50 cents at any reliable druggist's, particularly O'Leary's and R. W. Walker & Co., who make a specialty of it. Or the Emergency Laboratories, No. 32 West Twenty-fifth street, New York City, will send a trial supply free by mail to any one who will write for it. This is sufficient to show results in 24 hours.

JUSTICE BREWER DIES SUDDENLY

VACANCY IN SUPREME BENCH IS
OCCASIONED.

Solicitor General Bowers Is Tipped to
Succeed the Venerable
Judge.

APPOINTED BY CLEVELAND.

Washington, March 29.—"He was an able judge" were the sentiments uttered by President Taft when he received the news of the death of Justice Brewer. His death leaves only seven active members of the supreme court of the United States. President Taft promised Bowers, solicitor general, in their college days that he would make Bowers a member of the supreme court if he became president. Bowers is looked upon as a likely candidate for successor to Brewer.

Justice David J. Brewer was 73 years old, and was appointed from Kansas by Grover Cleveland in 1889.

Justice Brewer was born at Sumner, Mo., the son of the Rev. James Brewer, a pioneer missionary to Turkey. His mother was the sister of Cyrus Field and Justice Stephen J. Field. After graduating from Yale, class of '56, and from the Albany law school two years later, Justice Brewer began the practice of law at Leavenworth, Kan. Successively he was United States commissioner, probate judge of his county, district judge, county attorney, justice of the Kansas supreme court and then in 1888 judge of the United States circuit court.

He was found at 10:30 o'clock last night dead of apoplexy in the bath room in his home at Washington. Mrs. Brewer was the first to discover his body.

On account of the Standard Oil and other important cases in the supreme court, his death was particularly untimely.

HAS IT IN FOR THE WOMEN.

Man Created Before Adam Arrested
in Oklahoma City.

Oklahoma City, Okla., March 29.—Gus Close, a religious enthusiast, who claims to have a contract with the Lord whereby all nations are to be made one, with Close as the ruler, was arrested today and will be examined by the insanity commission. Close is forty years old, and is said to have operated in Kansas City, St.

PROVEN ECZEMA CURE.

For several years we have announced, with our recommendation, that we had found a positive cure for eczema; a simple skin wash, oil of wintergreen compounded with other healing ingredients.

Yet we know there are people right in this town who have eczema, and still have never tried this remedy.

We have, therefore, arranged with the D. D. Laboratories of Chicago for a special offer of a trial bottle at 25 cents instead of the \$1.00 bottle as regularly sold. Its cure of the correct name: D. D. D. Prescription.

We offer this trial bottle with our recommendation and assurance that just as soon as the patient washes his itching skin, this mild liquid will take the itch away instantly.—R. W. Walker Co.

Refrigerator Time is Here!

We are exclusive agents for the celebrated HERRICK REFRIGERATOR. As the time is here when you need a refrigerator, we want to invite your most critical inspection of the HERRICK REFRIGERATOR. If you buy something good in this line something that will answer the purpose in every detail, you will not have occasion to buy again soon, and we can assure you that you will never have cause to regret having bought a HERRICK. What we say of this piece of goods is based on five years of experience in the use of it. We have learned by experience that the HERRICK uses less ice with the same storage space than any refrigerator made. We have also learned that we can give you more storage space in the HERRICK for the same money than you will pay for a cheaper make of refrigerator. THE HERRICK REFRIGERATOR has no zinc or metal lining to mould and corrode. It is lined with odorless spruce, plain and enameled, which keeps the refrigerator pure and sweet at all times.

The Circulation in the Herrick is Perfect

A careful mother does not allow her children to play with matches. Keep them in a Herrick Refrigerator where they will be safe from babies and mice. Matches can be kept indefinitely in a Herrick, because the circulation is so perfect they cannot become damp.

The Water cooling device in the Herrick Refrigerator cannot be equaled. The water tank, as you will see from the cut, is attached either from the top or side of the refrigerator and is on the outside. The water passes from this tank through a coil on which the ice rests, and is drawn from the faucet at the side of the refrigerator, ice cold. The water does not come in contact with the ice at all, therefore, it is not tainted with ammonia as water usually is when the ice is put in the water. Now, in the Herrick we feel perfectly satisfied that it will answer every purpose desired and expected of a refrigerator and make the following proposition:

Thirty Days' Trial Free

Every person who expects and wants to buy a refrigerator this season and is not fully satisfied that the Herrick Refrigerator will render the service recommended, we will gladly place the same in your house on THIRTY DAYS' FREE TRIAL. If, at the end of that time you are not satisfied with the service rendered after following the directions given, we will bring the refrigerator back without any cost to you whatever. COME TO OUR STORE, AND SEE THE CELEBRATED HERRICK REFRIGERATOR, RED UP AND IN OPERATION IN OUR SHOW WINDOW AND WE WILL take great pleasure in demonstrating the superiority of the Herrick over the other makes of Refrigerators.

Your Credit is Good  F.N. Gardner Jr. Co. Your Credit is Good

Louis, Chicago, and other cities.

"I was not born," he said, "but created before Adam. I floated into this city on a cloud one day last week. I have been touring the world in disguise as a representative of God for many years, but I had my first conversation with the Lord today. We were to have taken dinner together at the Lee Hotel tonight. When I became ruler of the world, I shall kill all bad people. My lieutenants will be stationed on all street corners with swords to decapitate all who are bad. All women are nuisances and will be put off the planet and not allowed in the next world."

Notice.

I have moved my office to 204 1/2 Broadway, over Cherry's grocery, with Mrs. Bright and Wilkinson. Members of the M. W. A. please take notice and call here when payments are due. LOUIS RETTER.

INCREASES IN WAGES.

To Be Given Men on Minnesota Iron Ranges.

Duluth, Minn., March 29.—It was announced today that all the men employed by the Minnesota Iron ranges by the Oliver Mining company, a mining and steel corporation, would be given an increase of from 8 to 10 per cent, effective April 1. This order is the result of an investigation of the cost of living. It applies to every day laborer.

REMOVAL OF S.-CHINESE TREATY

Russian Paper Spreads Report to Russian Newspaper.

St. Petersburg, March 29.—The Reel today prints a story concerning a proposed treaty between the United States and China, which will bring the Chinese reeling Chinese minister at Washington, will endeavor to arrange. The treaty, according to the Reel, will provide that the United States shall help China with her fleet in case of China being attacked.

The Traveling Salesman.

If Henry H. Harris would sell by sample, the spectators, who attended the Kentucky theater last night to witness the performance of "The Traveling Salesman" would get their money back, and the local management would be spared the humiliation of being taken in. As it was, the only person connected with the production, who deserves any credit is the advance agent. He told us, perhaps, he is considered the traveling salesman for the show. If he is he deserves everything he said about it. There were scores of people attracted here from towns in the Purchase, and a crowded house greeted the rising of the curtain. A few times saw it go down on the last act. We would not condemn the show for its entirety. The paper was excellent, and the advance notices could not be heeded for path and advertising value. In the first place, "The Traveling Salesman" is of the old order of rural comedy, with the mortgage on the farm, the orphan girl, the mean villain with the "slate" colored face running down from the corner of his mouth; the drunken tool of the villain, and the "Johnny on the Spot" hero. But we could stand for all that. If the "Oh, you kid" comedian had not been so obviously ubiquitous. Another cute little trick they all have is coming down stage and talking to the audience instead of each other.

The theatrical columns of the Evening Sun are carefully edited to protect the public from deception, but both the Evening Sun and the local management were deceived themselves in this show.

Amendment to Railroad Bill.

Washington, March 29.—Through an amendment to the railroad bill introduced today Senator Barton seeks to prevent the railroad companies from reducing rates for the purpose of crushing water competition, by prohibiting an increase afterwards.

The apple was responsible for Adam's downfall, but many a modern man traces his to a peach.

Heyburn Conducts Filibuster.

Washington, March 29.—Senator Heyburn inaugurated a "lone man" filibuster in the senate in opposition to a bill providing for the diversion of re-survey of 20 per cent of the money appropriated for the survey of public lands.

The present law authorizes the diversion of 5 per cent and the Idaho senator sought to hold the proportion at the lower figure. He declared his intention of holding out all day if necessary to maintain his position.

Weston Ahead of Time.

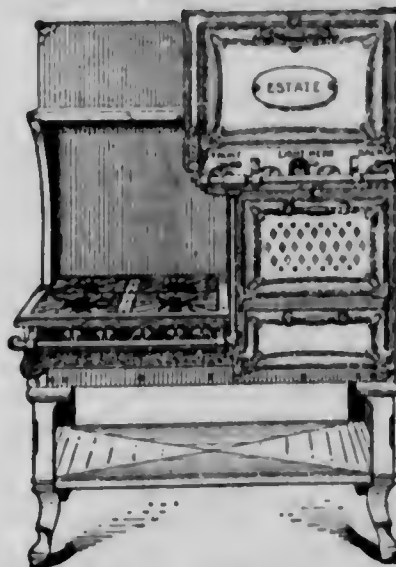

Dumas, Mo., March 29.—The pedestrian Weston arrived here from LaPlata, covering 61 miles during the day. He will cross the Des Moines river into Iowa tomorrow morning. Argyle, Iowa, will be the first stop. He is ten days ahead of his schedule.

College Baseball.

Washington, March 29.—Yale beat Cornell in the first baseball game of the season here today, 6 to 4. Princeton defeated Georgetown University in the second game of the season here today, 9 to 3.
